## Objective

Energetic BCA student and self-driven MERN stack developer with experience and also learn C programming and up-to-date web development. Hoping to achieve hands-on experience and learn new things while contributing to projects related to real-world scenarios. Interested Frontend Developer with a strong background in backend development. Experienced in React, JavaScript, HTML/CSS, and Express.js. Hoping to work with a dynamic team where I can expand and develop user-friendly, intuitive web applications.

## Education

S.no	Name of School/college	Class/course	Pass out	percentage
01	Government co-ed sr. sec school Dwarka sec.22, new delhi	12th	May 2024	69%
02	DPG Degree College, Gurugram	BCA	June 2027	8.55 SGPA , 1th sem

## Skills

**Programming:** C Programming, C++, JavaScript, Node.js, Python, HTML/CSS, MERN Stack

**Framework:** React.js, Express.js, Flask.

**Database:** MongoDB, SQL.

## Projects

### GuitarAPD – Guitar Selling Landing Page

- A visually appealing landing page designed for a fictional guitar selling brand, showcasing core frontend development skills.
- Built a fully responsive product landing page using HTML, CSS, and vanilla JavaScript.
- Showcased product features, brand message, and call-to-action for a realistic e-commerce feel.
- Designed modern UI layout with engaging visuals and smooth transitions.
- Ensured cross-device compatibility and clean semantic structure for future scalability.

### JobBoard – MERN Stack Job Seeking Application

- Designed and developed a modern, responsive UI using React for browsing and applying to jobs.
- Implemented secure authentication with JWT and role-based access control (Admin, Employer, Job Seeker).
- Built scalable RESTful APIs with Express.js for job posting, user management, and application tracking.
- Integrated MongoDB to manage job listings, user data, and application records.
- Utilized external APIs to fetch company data and enhance job listing details dynamically.
- Integrated API (via RapidAPI) to fetch real-time job listings and enhance job search functionality.
